

Aerospace and Defense Interoperability, Collaboration between AIA and ASD ILS suite of specifications

"The Voice of American Aerospace and Defense"

Rusty Rentsch
VP Technical Operations and Workforce - AIA

The full suite

- The complete suite of S-Series ILS Specifications is:
 - **SX000i** - International guide for the use of the S-Series of Integrated Logistics Support (ILS) specifications
 - **S1000D®** - International specification for technical publications using a common source database
 - **S2000M** - International specification for material management - Integrated data processing
 - **S3000L** - International specification for Logistics Support Analysis - LSA
 - **S4000P** - International specification for developing and continuously improving preventive maintenance
 - **S5000F** - International specification for in-service data feedback
 - **S6000T** - International specification for training analysis and design
 - **SX001G** - Glossary for the S-Series ILS specifications
 - **SX002D** - Common data model for the S-Series ILS specifications
 - **SX003X** - Interoperability matrix for the S-Series ILS Specifications
 - **SX004G** - UML model reader's guidance
 - **SX005G** - S-series ILS specifications XML implementation guidance
 - **S1000X, S2000X, S3000X, S4000X, S6000X** - Input data specifications
 - **ASD-STE100®** - Simplified Technical English
